

Margot Bellin Breckbill: Thanks so much for keeping us all apprised of those classmates we have lost. It gave me quite a heart pang to see some of those faces. It's been a long time and I live far from Great Neck now as I guess you do. I ended up in Kansas — Someone should remind us to be careful whom we marry — we might end up where we didn't expect to. I've been divorced for 20 years + but I'm still in Kansas mainly because my kids are close by. I have a son who is a pilot for United. I'm sure your flying adventures are very different!
